Drawing Life for Kids on Tour: Celebrating Artists

GALLERY OF MODERN ART

Drawing Life for Kids on Tour will comprise an exciting range of interrelated drawing activities designed to stimulate children's imaginations and be enjoyed with family and friends.

Participants will receive a copy of a drawing journal drawn from the Children's Art Centre publication *Drawing Life for Kids: My Art Journal*. The richly illustrated 'On Tour' journal features 18 drawing activities which have been approved by kids for kids. The journal invites children to record their daily lives, aspirations and imaginings, to treasure forever.

A series of four full-colour drawing templates focusing on celebratory moments in a child's life including birthdays and sleepovers will also be available for young visitors to draw on and share with family and friends.

Landscapes

ADRIENNE WILLIAMS, AINSLIE MCMAHON,
AMANDA VAN GILS, JACQUI REED, JENNIFER
KENNY, VERONIKA ZEIL

This exhibition features the artwork of six regional Queensland based artists. The artists are exploring; movement, light, colour, form and contrast, as they capture the essence of the landscapes that inspire and surround them. Jennifer Kenny and Jacqui Read are responding to a change in landscape, both having relocated from other areas. Adrienne Williams is presenting a body of work developed during her time as artist in residence at Bundanon in Southern NSW. Amanda Van Gils' oil paintings capture the fleeting images of landscapes as seen during a road trip. Ainslie McMahon's and Veronika Zeil's artworks encourage the viewer to contemplate the sublime in nature as well as the many questions arising from our land use.

Cabinets of Curiosities

ALICE MCLAUGHLIN, ANN GROCOTT, CARYL PLANT, CHRISTINE TURNER, CLINTON CROSS, JENNIFER MCDUFF, JENNY GILBERTSON, JO WILLIAMS, SUE HUTTON

Cabinets of Curiosities or Wunderkammern were the sixteenth and seventeenth century personal collections of wealthy aristocratic men. These collections were often compiled during their grand tours of Europe, or through their connection to the discovery and conquest of the new world. These cabinets were works of art within themselves, displaying not only beautiful and rare objects, but also the strange, primitive or curious.

Cabinets of Curiosities features invited, local artists' interpretation of a modern day cabinet of curiosities, by presenting to gallery visitors their own personal collections of items.

Bania Bloodwood

MADELINE KING

The title of the exhibition refers to the geographical area where the paintings were created, Bania Road Mt Perry, and one of the tree species native to the area, the pink Bloodwood.

Madeline King's exhibition is an appreciation of the native flora of the area, her paintings explore the naturally occurring patterns and colour.

The Green Series

In order to foster environmental awareness within our community, Bundaberg Regional Art Gallery has curated a program of site specific art installations in The Vault for 2012.

Six artists were selected to participate who are focusing on a broad range of environmental concerns, from the health of our oceans, through to exploring the impact gas fields are having on our central Australian environment. The artists are working across many mediums; natural materials, recycled materials, found objects, photography and print making.

We invite you to engage with our year long program and visit each of the participating artist's installations throughout the year. Hopefully we will all become a little more aware of the impact that we are having on our environment and that our natural resources are finite.

Mental As Anything

KASMINE PEARCE

Mental As Anything showcases a limited collection of 22 black and white photographs by artist Kasmine Pearce. This exhibition is designed to provoke the viewers' thoughts on mental illness and to highlight the sometimes distorted perception of how mental illness is viewed within our society. Pearce will be donating 25% from the sale of her artworks to local community organisations to help improve mental wellbeing in the region.

They Came

HOLYGREENCOW

They Came is an autobiographical look at the world through the eyes of the everyman. The exhibition examines responses to end of the world scenarios and nature reclaiming using a visual aesthetic akin to the sci-fi movies of the 1950's. The series is comprised of 11 framed images that tell an autobiographical tale of what might happen if we continue to ignore science. The photographs are snapshots from a future in which the world has become over run by monstrous invaders, caused and constructed through human inaction, which are snapped by the not so innocent bystander.

Through the use of lo-fi technology, HolyGreenCow's photographs trigger a sense of urgency in the viewer. The characters are blurred, frozen mid-movement, fleeing from harm and seeking a hide away. This calls the viewer to action, to consider the consequence for ongoing neglect and lack of respect for the planet we share. The series has been shot on an iPhone using elaborately structured dioramas, which include rear projections, live performance, cut out figures and elements such as fire. The unique process and use of lomo digital photography have given this series wide appeal to all ages and has been shown in a number of public spaces and galleries.
